

Faulding[®] Remedies Glucosamine & Chondroitin 60 Tablets

Faulding[®] Remedies Glucosamine & Chondroitin Extra strength dual action formula to help relieve osteoarthritic joint pain also:

- For symptomatic relief and management of osteoarthritis.
- Assists in maintaining joint flexibility.

About this product

Faulding[®] Remedies Glucosamine + Chondroitin may assist in the symptomatic relief of mild osteoarthritis. It may help to reduce joint inflammation and swelling associated with osteoarthritis, and provide temporary relief of mild osteoarthritic pain. Faulding[®] Remedies Glucosamine + Chondroitin helps to maintain healthy joint function, provide structural support to the joints and assists in maintaining joint flexibility. Glucosamine + Chondroitin play a role in the body in the formation of the articular cartilage, tendons, ligaments, synovial fluid & bone. Faulding[®] Remedies Glucosamine + Chondroitin contains Manganese, which plays a role in the synthesis of proteoglycans that are needed for the formation of healthy bone and cartilage, and Boron, which is necessary for the development of healthy bone tissue. Osteoarthritis is characterized by joint degeneration and loss of cartilage. As we get older the 'wear and tear' may cause degenerative changes in the cartilage. The cartilage becomes more susceptible to breakdown and damage.

Glucosamine is a major building block of the substances that together with protein form the structural units in cartilage. Supplementary glucosamine sulfate as glucosamine sulfate sodium chloride complex helps reduce cartilage wear, increase joint mobility and decrease joint stiffness in osteoarthritis. Chondroitin, like glucosamine, is a natural component of cartilage. Chondroitin is also involved in the lubrication and nutrition of the joint, and helps the joints to resist compression.

Manganese and boron are minerals which appear to play roles in joint health. Manganese is essential for the production of cartilage and bone

Always read the label. Follow the directions for use. If symptoms persist, talk to your healthcare professional.

Ingredients

Each Tablet contains:, Glucosamine Sulphate – sodium chloride complex 750mg, Chondroitin sulphate – bovine sodium 400mg, Borax 8.8mg equiv Boron 1mg, Manganese Gluconate 8.8mg equiv Manganese 1mg.

Free from

Gluten, dairy, yeast, lactose, artificial colours, artificial flavours, preservatives, sugar/sucrose, wheat, nuts, egg, gelatine, alcohol, wheat starch, parabens, sulphites/sulphur, mustard, garlic, mint, aspartame and aspirin.

Contains
